Monocordi figure ubi note sunt iste que sequuntur Γ A B C D E F G

Hec sunt claves graves. Sed cum minoribus litteris describuntur / alie que minoribus litteris simplicibus scribuntur acute vocantur. Sed ultime que duplicate eidem super acute dicuntur. Earum in monocordo talis dispositio vocatur. Ab aliquo puncto notabili recta linea protrahatur quantum placuerit et puncto consimili terminetur. Hec linea dividatur equaliter in novem passus vel partes equales, et in principio ponatur gamma Γ. Et in fine primi passus ponatur A. Secundus passus vacabit, tercius terminetur in D. Quartus vacat, quintus in a, sextus in d, septimus in a, reliqui vacant. Item ab A dividatur in 9 partes, primus passus terminabitur in B, secundus vacat, tercius in E, quartus vacat, quintus in b, sextus in e, septimus in b, reliqui vacant. Item cum Γ gamma quatuor passibus divisionem fecerit usque in fine monocordi, primus passus terminabitur in C, secundus in G, tercius in g, quartus finit. Item si a C in quatuor passus dividatur linea, primus terminabitur in F, secundus in c, tercius in d, quartus finit. Item ab F si in quatuor dividatur, primus terminabitur in b rotundum, secundus in f. Item a b rotunda fiat divisio in duos passus, primus terminabitur in b rotunda superacutum. Item [illegible] spacii et a b rotunda acuta usque in fine monocordi. Tandem spacii [illegible] ab eadem b rotunda [illegible] gamma et in fine [illegible] b rotunda [illegible]. Item [illegible] in duos passus primus terminabit in e superacutum.

Si autem [illegible] proportiones vocum [illegible] erit ut [illegible] in linea supradicta, ponatur [illegible] in locis [illegible] competentibus vocum proportiones [illegible] dividatur quod linea supradicta in 12 passus equales et [illegible] passibus [illegible] ita quod sub vel super Γ 12, sub C 9, sub D 8, sub G 6, sub [illegible] 4, sub g 3, sub d 2, aliis numeris locis [illegible] competentibus locabuntur. Erit autem tanta quantitas [illegible] spacii quantum distat C et D [illegible] numerus [illegible] proportio [illegible] proportio que est quando maior numerus continet in se minorem et tertiam partem, sicut 12 continet in se 9 et eius tertiam, et proportio dyatessaron generat. Item quanta est proportio inter 9 et 6, tanta est inter C et G. Est autem sesquialtera que est quando maior numerus continet in se minorem et eius medietatem, ut 9 continet in se 6 et eius medietatem, et proportio dyapente [illegible] quanta est inter 6 et 3, tanta est inter G et g. Est autem dupla, cum dyapason generat. Item inter C et D tanta est proportio quanta inter 9 et 8. Est autem sesquioctava, ubi maior continet minorem et eius octavam, unde tonus vel epogdous generatur. Item inter Γ et d est tripla proportio quanta inter 12 et 4. Constituit dyapason cum dyapente. Item inter 12 et 3 est quadrupla proportio quanta inter Γ et g, cum bis dyapason generat. Si monocordum dividatur in 12 partes equales sicut in aliis terminari [illegible] in A vel C vel similibus [illegible] in qualibet [illegible] que cum simili sonat dyapason continet in medio [illegible] dyatessaron et dyapente. Sciendum etiam quod [illegible] proportio [illegible] in fundendis cimbalis observatur, ita quod inter cimbala que sonant dyapason sit inter eadem dupli proportio ponderum, que [illegible] debet dyapente sit sesquialtera proportio ponderis, ita quod si minus cimbalum continet [illegible] talenta, maius habeat 6, si maius 4, minus habebit 2, similiter de aliis proportionibus iudicatur. Est autem [illegible] ut cera vel alia materia [illegible] sit [illegible] cimbalorum [illegible] ad auriculas pondentur [illegible] cimbalorum [illegible] correctionem fuit lima vel lapide [illegible].

Secundus textus huius secundi libri. In quo philosophus determinat de quibusdam defectibus qui accidunt circa quedam syllogismos ex ypost. Et dividitur in tres [illegible] defectus de quibus determinat. In primo textu de uno defectu qui dicitur petitio principii qui accidit circa syllogismum ostensivum. In secundo textu de quodam defectu qui dicitur non propter hoc accidere falsum qui accidit circa syllogismum ad impossibile. In tertio textu de quodam defectu qui dicitur fallacia opinionis qui accidit circa syllogismos ex opositis. Secundum textum est ibi Non propter hoc accidere falsum. Tertium est ibi Accidit autem [illegible]. Primus textus dividitur in 2 partes. In prima declarat quid sit petitio principii. In secunda ostendit quomodo contingit

Hoc autem est sicut quidem fiat. Primo describit ingnia (?) petitionis principii dicens quod petere principium ut in genere est sumere id quod propositum est probandum sumere non probatum; secundo ostendit [illegible] quando nec est propositum sumitur quod omnino non probat ut per ignotiora vel per minus nota syllogizat vel per prius notum vel per aequaliter notum syllogizat ut si quis probet esse [illegible] per posterius ut per solos (?) circulo [illegible] sic ut [illegible] probetur [illegible]. Et dicit quod nihil peccatorum modorum est petere principium [illegible]. Tunc igitur quando ponit describit petitionis principii [illegible]. Et quia aliqua sunt per se nota sicut principia, alia sunt quae non sicut conclusiones demonstrativae, quae per alia probantur; ideo petere principium est [illegible] quod non est per se notum aliquis per se conatur ostendere vel assumit tamquam per se notum secundum litteram. Hoc autem est sicut quidem fiat. [illegible] (quod constituit petere principium) et dividit in quot plures

[illegible]

Ergo quidem est aliquis [illegible] alia [illegible] declarat quod petere principium non [illegible] Si autem [illegible] [illegible] modos petendi principium in demonstrationibus [illegible]. Si est autem impossibile [illegible] petere principium duobus modis [illegible] [illegible]

[illegible]

sylogizare [illegible] quia sic quia sic syllogizare est [illegible] syllogizare. [illegible] declarat exemplariter non sicut (?) [illegible] possumus exemplificare hoc idem in [illegible] sicut in primo syllogismo [illegible] omne [illegible] est animal, omnis homo est [illegible] omnis homo est animal [illegible] [illegible]

Similiter autem ponit [illegible] dubia [illegible] petere principium [illegible] omne [illegible] est homo, omne animal [illegible] [illegible]

In media autem figura [illegible] quo petere principium [illegible] [illegible]
